Jean,

Is your calendar up to date for June 20-21? If so, I thought I'd ask Suzi to schedule some time with us using Outlook.

Corbin

Corbin-

Let me know if there are times that work for you re meeting in Denver next week. I am working with Michael W to connect with USDA per the EJIWG Rural Communities Committee. I will be in Denver on June 20,21.

Look forward to seeing you!

Suzi

Matthew,

That sounds like a great approach. Thanks for your help with this.

Hey Corbin – thanks for reaching out on this. And absolutely we can and want to help with this. We are going to touch base quickly here internally this afternoon. Maybe we can get on the phone with you and whoever from the Region on Monday/Tuesday next week? If that sounds good, let me know and I'll set a time. And Suzi is actually going to be in Colorado next week so maybe after we all touch base, she might be able to swing through the R8 office and have a deeper conversation about it.

Best,
M

Subject: EJ Analysis for UIC Permit in R8

Matthew and Sheila,

Region 8 has undertaken issuing 2 Underground Injection Control (UIC) Area Permits to Powertech (USA) Inc., for injection activities related to uranium recovery. The proposed project is located in the southern Black Hills within South Dakota. The UIC wells include a Class III Area Permit for injection wells for the in-situ recovery (ISR) of uranium and a UIC Class V Area Permit for deep injection wells that would be used to dispose of ISR process waste fluids. Waste injected under the Class V permit must be treated prior to being injected and must meet all radioactive waste and hazardous waste standards. Monitoring of the Class III injection well fields will take place, before, during, and after ISR operations to ensure the underground sources of drinking water are protected.

The Region is also proposing an aquifer exemption approval in connection with the UIC Class III Area Permit.

Ex. 5 Deliberative Process (DP)

Thanks in advance for any assistance you or your staff can provide.

Corbin
